

March 6, 2021

To: The Government Administration and Elections Committee,

As a Connecticut resident, I am writing in support of SB 1017 making ballot drop boxes permanent for the collection of absentee ballots. In addition, among the other provisions of this bill, I particularly support including absentee ballot central counting locations in post-election audits of voting districts; requiring the Secretary to review local election officials' implementation of redistricting plans; and requiring the Secretary to provide accessible absentee ballots to certain visually impaired electors.

Sincerely,

Leah Raechel Killeen
